The Board Chairperson Mrs. Elizabeth Masiku facilitating the handover of Mr. Emmanuel Mudenda resigning as the Executive Director for Mmabana. Others witnesses present were Mrs. Memorine Chiteta, Mr. Kalaluka, Mrs. Mawino, Mr. Mwiinga Patson and Mr. Kilaka Tobias, met on the 4th of January 2023 and concluded the resignation of Mr. Mudenda. Mmabana wants to thank Mr. Emmanuel Mudenda for the great work he has done leaving behind a great legacy to be remembered for in Mmabana history. We therefore wish him God's blessings in his future life endeavors.

July—December intake Students writing their final 2022 Theory Exam and all together we managed to graduate 65 students for the year 2022. They were all awarded with a certificate signed by Choma Trades Training Institute (CTTI) who are partner for many years now and as management we want to extend our gratitude to them for the continual support they have given to Mmabana.

Staffs & Graduates had a wonderful dinner after the graduation ceremony which was a highlight for 2022 and many people were in attendance. Mmabana want to thank all that participated in empowering these youths who are now going out to make a difference in the community because they now have the skill and knowledge about computer!

We started 2023 on a good note with the Management members due to the changes, we had a short staff orientation and training for one day to give each other responsibilities and discussing on the structure for 2023. As management we believe in planning as they say “proper preparation prevents poor performance!”

Children receiving school requirements getting ready for school!

We thank God for the Friends of Mmabana who have continued supporting these children in schools. We currently have 50 children who have reported for school in January and others completed their grade 12 and sadly others stopped due to circumstances.

Our first youth club in 2023, we had facilitations by Adaptive Leadership Zambia who are now our partners and we appreciate then for empowering our youths with HIV/AIDS awareness. This year we are looking forward to have many youth empowerment programs such as youth camps, ventures and youth nights.

During Reading & Writing Club, children concentrating on learning literacy how to read and write.

Our new computer students enjoying their class as they were busy doing their assignments and research
